PORTFOLIO

mdvasilev20.github.io/portfolio

TECHNICAL SKILLS

- C# / .NET / ASP.NET
- OOP & Design Patterns
- MSSQL / MySQL
- HTML / CSS / JavaScript
- Razor View Engine
- REST APIs & ORM
- PHP / C++
- Bootstrap / JSON
- Git & GitHub
- WordPress CMS
- Embedded Systems (C)
- Functional Programming

COMPETENCIES

- Software Architecture
- SOLID Principles
- Unit & Integration Testing
- Algorithms & Data Structures
- Concurrent Programming
- Agile / Teamwork
- Problem Solving
- UX/UI Design Awareness

LANGUAGES

- **Bulgarian** - Native
- **English** - C1 Proficient
- **German** - A2 Basic
- **Danish** - Beginner

PROFILE

Passionate software engineering student with 5 years of academic study in programming and hands-on professional experience in web and application development. Proven ability to work in professional teams and high-pressure environments, including the first-ever International Olympiad in AI. Strong technical foundations in OOP, databases, and web technologies combined with a drive for continuous learning and creative problem-solving.

PROFESSIONAL EXPERIENCE

Internship

ADataPro — Feb - Jun 2023

- Building relational databases using MSSQL
- Developed multiple mini-projects

Web Programmer

Simple Studio - Burgas, Bulgaria - Full-Time — Aug - Nov 2023

- Built and maintained websites for companies using WordPress CMS
- Collaborated with developers and designers; worked directly with customers

Internship

TechnoLogica — Feb - Jun 2024

- Gained experience in Python
- Developed a python web-scraper script

Web Developer

BGO Software - Sofia, Bulgaria - Full-time — Jul - Sep 2024

- Developed web applications using C# and .NET
- Gained hands-on experience with modern web development frameworks
- Strengthened collaboration and adaptability within an agile team

Internship

TechnoLogica — Feb - Jun 2025

- Developed web applications using C# and .NET
- Created a tourism web-application using the .NET framework

Waiter

Amaya Beach - Kraymorie, Bulgaria - Full-Time — Jun - Aug 2025

- Maintained professional restaurant image and ensured guest satisfaction
- Demonstrated interpersonal and communication skills in a fast-paced environment

VOLUNTEER & EXTRACURRICULAR

Technical Team Member

International Olympiad in AI (IOAI) — 2024

- Part of the technical team for the first-ever International Olympiad in Artificial Intelligence
- Ensured seamless technical operations under high-pressure conditions

Project Volunteer

Greenburg - EU Co-financed Initiative — 2 years

- Organized sustainability events and campaigns; collaborated with international teams

EDUCATION

BSc Software Engineering

Syddansk Universitet (SDU), Sønderborg — 2025 - Present

Applied Programming Specialist

Professional School for Computer Programming & Innovation, Burgas Sep 2020 - May 2025

- 5-year programme with two industry placements (10th & 11th grade)
  - **OOP:** Advanced concepts - lambda functions, LINQ, delegates, event listeners, debugging
  - **Algorithms:** Recursion, combinatorics, binary search trees, graph representations, Dijkstra's algorithm, hashing
  - **Databases:** MSSQL - normalisation, CRUD, nested queries, advanced design, ORM
  - **Web Development:** ASP.NET, system design, design patterns, SOLID, Razor, APIs, auth, UX/UI, testing
  - **Software Engineering:** Three-layered architecture, unit testing, external libraries, LINQ
  - **Embedded Systems:** PWM control, sensors (humidity, temperature, sound), DC motors
  - **Functional & Concurrent:** I/O, tail recursion, anonymous functions, internal state, concurrency
  - **Mathematical foundations of programming:** Solving systems of linear equations, vectors, sets
